2) "There has been no doubt some dissatisfaction among Indian Students in England about the supervision and control sought to be exercised by Mr Arnold and his organisation It has been suggested that the control is more political than educational in character and aims But unless we are content to let things as they are and depend only on certificates which students may get from their professors and send us there is no better alternative to accepting Mr Arnold's services

Final Note by the First Member of Council

Subject –

Control of the Educational Adviser to Indian Students, London over Mysore State Scholars

W 27 In Government Order No 8143/Edn 237-09-2 dated 17th March 1910 certain rules for the guidance of Mysore State Scholars in England were approved by Government In these rules it was declared among other matters that these Scholars will be ---- regarded as being under the supervision and charge of the ----- Educational Adviser London

V 28 Mr Arnold has now pointed out that the present arrangement is not at all satisfactory as the Scholars receive their ----- stipends direct from India and are under no obligation whatever to consult him or to ask any help except when it suits them to do so

29 He states that it is quite impossible for him to exercise any efficient control over the Scholars unless he has charge of their finances as in the case of Government of India Scholars and suggests that stipends should not be remitted to them without a declaration from him that their progress and conduct has been satisfactory
